MF Boards

MF Boards

MF PB is a standard board and an essential material in the furniture and interior design industries. Made from particleboard covered with decorative paper impregnated with melamine resin, it's the most widely used material for modern furniture and is available in various finishes, including gloss, matt, lightly textured, and wood grain.

For special applications, we offer additional MF PB boards with improved moisture resistance and fire retardant properties.

Compact Interior

Compact Interior

Compact Interior boards are high-pressure structural laminates consisting of multiple core layers with a decorative resin-impregnated paper. Their durability, structural strength and moisture resistance make them ideal for interior and commercial applications subject to high impact and moisture, as well as for use in heavy duty areas.

Rocko Tiles

Rocko Tiles

Waterproof Rocko Tiles, made of over 70% of mineral core, finished with high-quality UV coating, is an outstanding material for domestic and commercial use, both in new projects and renovations.

Versatility of Rocko Tiles allows for many application possibilities – wall coverings in wet & dry areas, decorative finishes, doors and entrance portals or even waterproof furniture.

Designed with utmost care of easy handling and installation; can be cut, shaped, drilled and most of all, installed on different subsurfaces: ceramic tiles, gipsium plaster, concrete, plywood or osb.

Worktops

Its core is made from MDP covered with a decorative High-Pressure Laminate. The front is reinforced with a special High-Density Fiberboard band and a special silicone band placed under the edge profile, providing an anti-leak and water-resistant barrier along the entire countertop. This makes it ideal for kitchen, office, and store counters.

Available in a U-shape with a lightly rounded 3.3 mm radius and double-sided U-shape, it is perfect for kitchen bar tables and islands.

Mirror Gloss

Mirror Gloss

Mirror Gloss boards, used in home furniture, office furniture, tall-standing kitchens, bathrooms, and commercial spaces, are produced with edge-banding technology to create a surface with an unmatched finish and gloss. A high-quality decorative melamine film is added, which adheres to the sanded MDF board to create a product that captures and reflects the surrounding light. The range offers resistance to impacts and scratches.

Acrylic Matt

Acrylic Matt

Acrylic Matt decorative boards, of premium quality, have a delicate and subtle acrylic surface with an elegant appearance. Developed for use in furniture components, interior design, and commercial applications, they feature a fine, smooth-to-the-touch finish.

They are based on 17 mm premium MDF material from Kronospan, with a 0.7 mm matte lacquered acrylic front cover and a back layer of 0.6 mm high-resistance polystyrene that enhances stability.
